Subject: MLPAComments: PACKAGE S QUESTIONS

Hello,

I am aware of the economic impact Package 2 would inflict on the local sport and commercial fishery. However I also remember the incredible richness of ocean life along the California coast when I was a child. When my father took me fishing at Monterey and San Francisco. Are you fooling yourselves into thinking that our actions now will have no effect on the future? Are you rolling dice?

Remember the impact over fishing had on Cannery Row 80 years ago? Things will never be as they used to be.

I respectfully urge the adoption of PACKAGE 2 (two) for the Marine Protection Area of Monterey Bay. I hope the board will reconsider and vote against Package S.

How can the board be so sure that we — or the ecosystems -- can tolerate further fishery degradation. And still be able to withstand future imbalances that cannot be predicted. Do you imagine a time in the future when some miracle of revitalization will occur? The time to rebuild a robust ocean environment is now.

We do not **Protect** what we do not **LOVE**
We do not **Love** what we do not **KNOW**
We do not **Know** what we cannot **SEE**

Thank you for your consideration,
Jon Kranhouse
